This is a free translation into English of the statutory auditors' report on the financial statements issued in French and it is provided solely for the convenience of English-speaking users. The statutory auditors' report includes information specifically required by French law in such reports, whether modified or not. This information is presented below the audit opinion on the financial statements and includes an explanatory paragraph discussing the auditor's assessments of certain significant accounting and auditing matters. These assessments were considered for the purpose of issuing an audit opinion on the financial statements taken as a whole and not to provide separate assurance on individual account balances, transactions, or disclosures.

This report also includes information relating to the specific verification of information given in the management report and in the documents addressed to shareholders.

This report should be read in conjunction with, and construed in accordance with, French law and professional auditing standards applicable in France.

Statutory auditors' report on the financial statements

Year ended 31 December 2016

To the Shareholders,

In compliance with the assignment entrusted to us by your annual general meetings, we hereby report to you, for the year ended 31 December 2016, on:

- the audit of the accompanying financial statements of Total Capital International;
- the justification of our assessments;
- the specific verification and information required by law.

These financial statements have been approved by the Board of Directors. Our role is to express an opinion on these financial statements based on our audit.

1 Opinion on the financial statements

We conducted our audit in accordance with professional standards applicable in France; those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit involves performing procedures, using sampling techniques or

other methods of selection, to obtain audit evidence about the amounts and disclosures in the financial statements. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made, as well as the overall presentation of the financial statements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

In our opinion, the financial statements give a true and fair view of the assets and liabilities and of the financial position of the Company as at 31 December 2016 and of the results of its operations for the year then ended in accordance with French accounting principles.

2 Justification of our assessments

In accordance with the requirements of article L. 823-9 of the French Commercial Code (Code de commerce), we bring to your attention the following matters :

Note 1 to the financial statements presents the accounting rules and methods applied to the currency transactions, rate and foreign exchange instruments and bond issues.

As part of our assessment of the accounting policies implemented by your company, we verified that the information presented in this note to the financial statements was appropriate and consistently applied.

These assessments were made as part of our audit of the financial statements, taken as a whole, and therefore contributed to the opinion we formed which is expressed in the first part of this report.

3 Specific verifications and information

We have also performed, in accordance with professional standards applicable in France, the specific verifications required by French law.

We have no matters to report as to the fair presentation and the consistency with the financial statements of the information given in the management report of the Board of Directors, and in the documents addressed to the shareholders with respect to the financial position and the financial statements.

Total Capital International
Statutory auditors' report on the financial statements
8 February 2017

In accordance with French law, we inform you that, contrary to the requirements of article L. 225-102-1 of the French Commercial Code ("Code de commerce"), your Company has not included in the management report of the Board of Directors the information relating to remunerations and benefits received by the directors and any other commitments made in their favour. Consequently, we cannot attest the accuracy and fair presentation of this information.

TOTAL CAPITAL INTERNATIONAL

SIGNIFICANT EVENTS

During the year 2016, Total Capital International continued its activity on debt capital markets through various debt issuance programmes.

During 2016, Total Capital International issued debenture loans for USD 3,057 Million (after swaps) under the EMTN program.

For long-term borrowings, Total Capital International can issue along with TOTAL S.A., TOTAL Capital and Total Capital Canada Ltd., as principal issuer under the EMTN programme (guaranteed by TOTAL S.A.), on a US SEC Registered Shelf programme (guaranteed by TOTAL S.A.), under an AMTN programme in Australia (guaranteed by TOTAL S.A.) and on a stand-alone basis (guaranteed by TOTAL S.A.) on the Swiss market.

Total Capital International's issue programmes have a long term and a short term ratings by Standard and Poor's: A+/A-1 with a negative outlook, and by Moody's: Aa3/P-1 with a stable outlook. These ratings were made possible thanks to TOTAL S.A.'s guarantee granted to these programmes.

On April, 8th Moody's, following a complete review of the oil sector, decided to downgrade the rating of the long term debt of Total from Aa1 to Aa3 with a stable perspective.

In addition, Standard & Poors decided on February, 22nd to downgrade the rating of the long term debt of Total from AA- to A+ and the short term debt from A-1+ to A-1. The long term debt has a negative perspective.

Interest rates and currency transactions were concluded by empowered entities of Total S.A. in association with the development of the financial activities of Total Capital International, towards the Group as well as the market.

Note 1: ACCOUNTING RULES GENERAL PRINCIPLES

The balance sheet and income statement are established in accordance with the provisions of French law and in compliance with generally accepted accounting principles used by corporations.

ACCOUNTING RULES AND METHODS

The long- and medium-term financing transactions within the Total group are recorded as financial assets according to their face value.

✓ Currency transactions

Given Total Capital International's financial activities and the significant amount of its foreign currency inflows and outflows, Total Capital International uses multi-currency accounting, as financial institutions do.

TOTAL CAPITAL INTERNATIONAL

Therefore, at closing, Total Capital International does not use translation adjustment accounts but revaluates balance sheet and off-balance sheet entries whose impact is recorded in the income statement.

The revaluation of long-term off-balance sheet items in foreign currencies is recorded in the balance sheet as the financial derivative instruments with which they match (debenture loans).

The revaluation of short-term off-balance sheet items in foreign currencies is recorded under "revenue receivables from the revaluation of off-balance sheet foreign exchange positions" or "expenses payables for the revaluation of off-balance sheet foreign exchange positions."

The foreign exchange positions are converted into euros based on the exchange rate at the end of the fiscal year.

✓ Interest Rate and Currency Financial Instruments

Outstanding transactions involving forward financial instruments are recognized as off-balance sheet liabilities. They consist primarily of interest rate and currency swap agreements negotiated for hedging purposes in order to manage Total Capital International's exposure to fluctuations in interest rates and foreign exchange rates.

The interest differentials along with the premiums or discounts associated with these swaps or forward contracts are recorded, prorated over the period, in the income statement as financial expenses or income over the life of the items that they match.

A provision will be booked for possible losses relating to transactions where the accounting standards for hedging are not respected.

✓ Debenture loans

Debenture loans converted into US dollars or euros through individually paired swaps are shown after swaps in the balance sheet and in the income statement. They are converted at the closing rate on the date of the account statement. The profits and losses resulting from the conversion at the closing rate of the currency borrowings and currency swaps are recorded as revenue under the heading: Foreign Exchange Profits and Losses.

✓ Presentation of interests on swaps hedging debenture loans

Interests on debenture loans are presented net of swaps. This presentation establishes consistency between the profit and loss statement and the balance sheet (Debenture loans were presented after their reevaluation for foreign exchange variations on associated swaps) and enables a direct assessment of the final cost of debt. On the balance sheet, accrued interests on debenture loans are also disclosed net of accrued interests on swaps.

Note 2: FINANCIAL ASSETS

Financial fixed assets of Total Capital International are only comprised of long-term loans in US dollars with Total Finance for an amount of 19.751 Billion euros and with Total S.A. for an amount of 5.406 Billion euros.

a) Changes in financial assets
