

## Press release

Boulogne-Billancourt, 15 May 2019

Antalis has taken note of Sequana's press release distributed today and reminds that early February, it initiated, with the support of Goldman Sachs, a process aimed at putting in place a new shareholding structure, which will enable it to consolidate the deployment and financing of its strategic plan. This process is progressing in line with its execution plan.

As announced on first quarter operating results, at constant perimeter, exchange rates and accounting methods, Antalis estimates that in 2019, sales should decline by between 3% and 4% compared to 2018 and EBITDA margin should come in at between 2.7% and 3.1%.

### About Antalis
