Total is one of the largest integrated oil and gas companies in the world, with activities in more than 130 countries. The Group is also a first rank player in chemicals. Its 97,000 employees put their expertise to work in every part of the industry – exploration and production of oil and natural gas, refining and marketing, new energies, trading, and chemicals. Total is working to help satisfy the global demand for energy, both today and tomorrow. [www.total.com](http://www.total.com)

The Upstream business segment encompasses the Exploration & Production business and the Gas & Power Division. The Group has exploration and production activities in more than 50 countries and produces oil or gas in approximately 30 countries.
